## **Tender for Provision of Services with 100 Fully Electric Buses on a Service-Based Model in Multan**

1. Refer to the Para No. 3 of 'Note' given under Annexure-A titled "Technical Evaluation Criteria" at page 51 of the Revised RFP (Version 1) issued vide Addendum No. 1, reproduced as under:

*"If the experience cited by the bidder for criteria 1, 2, 3, 4, and 5 is as a member of a JV, the full experience will be considered if the bidder is the lead member of the JV. Otherwise, the experience will be evaluated based on the specific tasks performed as outlined in the particular JV agreement".*

For the purposes of interpretation, it is hereby clarified that the Note is intended to address circumstances where a bidder who has participated in the Tender as a single firm or Joint Venture (hereinafter called "JV<sub>present</sub>"), cites in its bid, an experience that pertains to the bidder (in case of single firm) or to any member in case of JV<sub>present</sub>, that was acquired in the past in form of a Joint Venture (hereinafter called "JV<sub>past</sub>") and not as a sole contractor. In such cases, if the bidder (as single firm or as member of JV<sub>present</sub>) was the lead member of JV<sub>past</sub>, the entire experience of the JV<sub>past</sub> shall be attributed to the bidder for evaluation. However, if the bidder was not the lead member of JV<sub>past</sub>, its experience shall be assessed with reference to the specific tasks performed by it, as evidenced in the JV<sub>past</sub> agreement. It is important to distinguish between JV<sub>past</sub> and JV<sub>present</sub> for the correct interpretation.

2. Refer to the Annexure-C titled "Adjustment of the Rate Per Km" of the Revised RFP (Version 1) issued vide Addendum No. 1,

It is hereby clarified that, in accordance with the provisions set forth in the document, adjustments for Lubricants / Other Fluids (PKL) are determined on a monthly basis. Accordingly, the MOI Revised (Mobil Oil Index) applicable to the invoiced month shall be utilized in the adjustment formula.
